Notes from the teacher:

As you have noticed, PowerSchool has been turned off from parent view. This is to allow us to work on the first report card of the year. Wow! It is hard to believe that term 1 is almost over!

Students have been introduced to a learning portal called Moodle for our new Science unit. This portal can be accessed from the school website. Moodle allows students to access course content even when absent from school, and allows for electronic submission of course work. So far this has worked well.
